

Becoming a Transpersonal Leader

One day MasterClass

Transpersonal Leadership – beyond the ego – is a journey, not a destination.

This MasterClass will outline the journey and provide insights into raising awareness, developing behaviours and increasing consciousness towards transpersonal leadership.

Why Transpersonal?

The best leaders for this century will be able to ride the wave of this increasingly changing world, harnessing the benefits of globalisation, technology and new societal attitudes to ethics and fairness. They will embrace collaborative relationships and be prepared to be radical in their thinking to build agile organisations that thrive on uncertainty and ambiguity. These leaders will operate beyond their ego, continuing personal development and learning. They will be able to:

- embed authentic, ethical and emotionally intelligent behaviours into the DNA of the organisation
- build strong, empathetic and collaborative relationships within the organisation and with all stakeholders
- develop a performance-enhancing culture that provides sustainability

We call people that can do this **Transpersonal Leaders**

Come on the Journey

This one day programme will provide an initial step into the understanding of Transpersonal Leadership and the personal development journey each leader can take. This is what the exciting day will include:

Areas to be covered	Insightful outcomes
21st Century Leadership	Understanding how and why leadership is changing
A contextual introduction to neuroscience	Increased self-awareness
Developing Emotional intelligence	Appreciation of behaviours and leadership styles to work on
Building a performance enhancing culture	How personal leadership impacts the climate and culture of the organisation
Increasing situational consciousness	Increased understanding of your purpose and impact of the ego
Values and judgement	How to improve decision making using values and judgement
Going beyond the ego	Serving all your stakeholders for the greater good

To get your juices flowing, about 2 weeks before to the MasterClass we will provide each participant with access to our ALIVE© Prep facility; it's a lively, advanced resource containing videos, exercises and some reading. It will take you about two hours to go through the whole on-line learning experience which you can do in one go or in bite sized pieces. By doing this we can really help you get the best out of the day; embedding and stretching your thinking, bringing your personal context into the room and helping you apply the learning to your own situation.

Becoming a Transpersonal Leader

Who should come?

We've designed this day for CEOs, C-Suite executives or other senior leaders who have a strategic role in the company.

How much do you pay?

Nothing, zilch, nought, nil, zero, zip; your place is paid for by your membership of Reciprocate and LeaderShape are not being paid to deliver this programme. Come along, enjoy and invest the time in your own learning.

Benefits

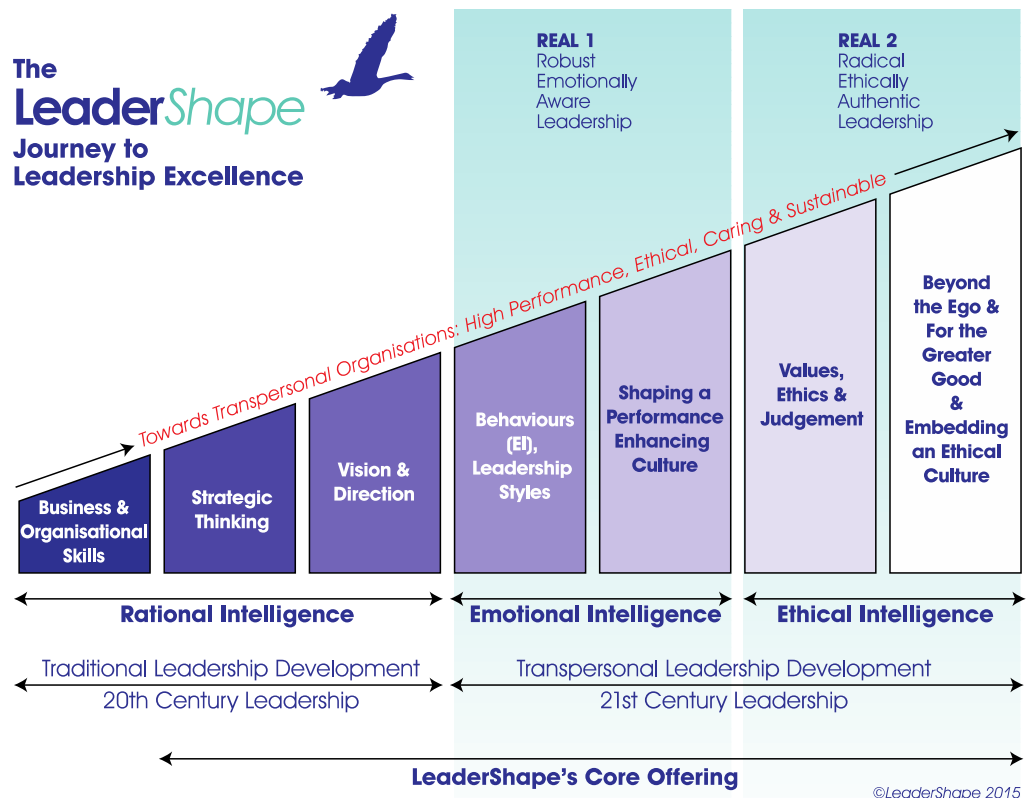

This MasterClass will continue the journey for senior leaders to start harnessing the strong business, technical and human skills they already possess to develop increased capability in leadership, enabling them to create organisational cultures that are performance-enhancing, ethical, caring and sustainable.

LeaderShape Global - Our Philosophy

While the rational thinking characteristics of leadership (vision, direction and strategy) are imperatives to success, they alone are not enough. Today and tomorrow the emotional and ethical aspects of leadership take on an increasingly important role in the sustainable success of organisations. This is where LeaderShape plays a key role.

LeaderShape's Differentiators:

- Faculty with senior executive experience – connecting strategy with behaviours
- Thought leaders in leadership, culture and performance
- Unique suite of advanced diagnostic tools and evidence based research
- Incorporating the latest research evidence from neuroscience in learning and development
- Programmes accredited to Master's Degree level
