

Better Mental Health Fund

Frequently Asked Questions

- 1. What should the budget and delivery timelines be for Mental Health grant applications?** We expect to confirm conditional grant awards by 15th July and funds will be transferred subject to the successful applicants then providing the necessary governance documentation. We cannot fund costs which have already been incurred. Funds need to be spent within the grant period. Assuming the necessary paperwork is quickly provided, the grant could therefore fund costs from August 2024 to August 2026.
- 2. We are a part of a larger national charity but we have an Oxfordshire branch, can we still apply?** If your finances are separate (your own bank account) from the national organisation and you have a local management committee then you can apply. If your finances are integrated into the national organisation then you cannot apply.
